ALDEN SPARKLING WATER

Carbonated water is water containing dissolved carbon dioxide gas, either artificially injected under pressure or occurring due to natural geological processes.

Carbonation causes small bubbles to form, giving the water an effervescent quality. Carbonated water (also known as soda water, sparkling water, fizzy water, club soda, water with gas is water containing dissolved carbon dioxide gas, either artificially injected under pressure.

CRAZY EIGHTS WATER

Drinking water, also known as potable water, is water that is safe to drink or use for food preparation. The amount of drinking water required to maintain good health varies, and depends on physical activity level, age, health-related issues, and environmental conditions. Optimal water intake is essential for your health.
